[SPECIAL TO THE EVENING WORLD.]
RACE TRACK GRAVESEND, May 18.—This was the third day of the Spring meeting of the Brooklyn Jockey Club, and, for the first time, there was clear, pleasant weather. The attendance, therefore, was considerally larger than on Saturday, notwithstanding there were no stake events on the programme.

The weather was beautiful. A cool fresh breeze was blowing, and just enough filtered through the windows in the back of the grand stand to make things cool and comfortable.

The high wind yesterday did just what was expected of it; it dried out the track thoroughly, and though it was a little dead it was

dry on top and in good condition.

The programme was an unusually excellent one for one that was gotten up over night, and in several of the events there were very high

ciass performers. There were few scratches and the spectators expected to see the best day's sport of the

It began with a flash-in-the-pan affair for two-year-olds. There was little speculation for betters, as a rule, do not look upon those contests with favor.

Those who did bet, however, put fheir money on Recess. It is becoming the fashion to back Morris horses, and they are well nigh invinci-

ble,
The second choice was McCormick, a goodlooking cost, with Marty Bersen up. There
were two third choices. They were Airtight,
who ran a good race at Guitenburg, wise Hamliton up, and the Emintrude cost, with the
"Saapper" in the saddie.
The betting was not brisk, however, and not
much money was carried by any of the candidires.

The favorite was never in it. Airtight made a hold bluff until the stretch was reached, when he petered out, and the Affinity colt, at 10 l, secured the purse after a spirited finish him heCormick and Recess, who finished as name!

Ein was a red-hot favorite for the second event, and the plungers endeavored to get even for the reverse in the first. His price wis almost a prohibitive one, and yet money went on in lumps.

He won in a canter from Lavinia Belle, who have many people heart disease by the way she went out and opened up a gap in the first hair mile.

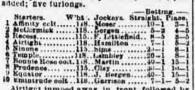

La Tosca was the fayorite for the third race, nurely on the strength of her private work. She was heavily played.

Correction, on the strength also of private this was second choice at the opening but the money came in on Nellie Bly in such quantities that she was nearly second choice at the city.

Registry, with Taylor no, had a following the private of the Fire Department.

end, Reclare, with Taylor up, had a following also. Outside of these none of the others were much fancied. Carrection won easily from the favorite. Reclare was third. FIRST HACE.

Airtigat was the first into the stretch, but he began to tire, and died away to pothing, and began to tire, and died away to nothing, and Affinity colt took up the runnin', with Mc-Cormick and Recess in close order bentind.

A cracking faush resulted in the Affinity colt winning by a used from McCormics, who lead the cost a neck. Time-1.05 g.

President Purroy, of the Fire Department, and Fire Chief Bonner were in secret conference with the Police Commissioners for several hours this afternoon.

The subject of the conference was the dispute between Chief Bonner, Police Capt. Stephenson and Col. Ham, of the Manhattan Elevated Road, in regard to the great fire in Leggett's grocery warehouse, a week ago. Chief Bonner considered the lofty east wall of Leggett's warehouse unsafe, and ordered Capt. Stephenson to cause the instant stoppage of traffic on the Elevated road in front of the

or traffic on the Elevated road in front of the building.

Col. Hain argued the matter with Capt. Stephenson, and the latter disobeyed Chief Booner's order.

Capt. Stephenson's report was presented to the Police Commissioners to-day by Acting Sup. Byraes. The Captain makes a practical denial of having disobeyed Unief Byrnes's orders.

He was in command of the police lines when Chief Boncer seat a request to stop trains running on the Lroad. The Captain communicated with Col. Hain, and the latter stopped the care running on the west tracks. Then traffic was stopped on both fracks until the General Engineer of the Lroad assured Col. Hain that there was no unanger, and traffic was resumed. The communication was laid on the table until Friday next, when both Departments will conier on the matter.

Bears Hammer Down Prices All Along Third the Line To-Day.

Good Effects of Saturday's Bank Statement Have Vanished.

Rumors of More Heavy Gold Ship-

There was very little in the way of news to affect the stock market this morning. The bears, however, took advantage of the gloomy outlook at the European financial centres to undo the good work accomplished by Matur-day's unexpectedly favorable bank(statement, and were successful in marking prices down t

All the leading shares and many of the inactive ones yielded % to 1% per cent. The great-est pressure was against St. Paul, Union Pa-cific, Louisville and Rock Island.

tighten up money is sufficient to induce the traders to hold off, at least so far as operating on the bull side is concerned.

Rumors of gold shipments by Wednesday's European steamships, said to be at least \$h_000,000, were used against the stock market late in the day.

The Grangers, Union Pacific, Missouri Pacific, Northern Pacific preferred, Atchison, and in fact all the prominent issues, were pressed for saie. The decline from Saturday's closing was equal to it a \$2\times per cent.

Up to the close of business, however, not one cunce of gold had been actually engaged for shipment to Europe on Wednesday. Nevertheless it is understood that \$2,000,000 have been positively ordered by European bankers.

The Treasury Department to-day purchased 410,000 onness of silver at \$8.00 as \$20.

The sales at the New York Stock Exchange were \$48,200 shares of listed stocks; \$90,000 ounces of silver and 17,000 barrels of Pennsylvania oil.

A New Rule That the **Board of Control** Should Adopt.

STAKES TENNY SHOULD WIN.

An English Jockey Advised to Sail Quickly for Home.

The Board of Control now has a chance to prove that it has the best interests of the turf and its supporters, the public, at heart. They can do this at their next meeting by formulating and putting into force a rule which will compel the bookmakers to bunch, in the betting, two or more horses that may be entered by one owner and to sell them as one stable,

precisely as done in the mounci betting.

There were two incidents at Gravesend on
Saturday which concussively proved that this
rule should be adopted. The cases referred to
were in the third and fourth races. In the third race Mr. Morris entered Laughing Water and Oppressor. The former was favorise and was expected to wis. The latter was at long odds and neglected by the public. He won. Littlefield making no great effort with the

In the fourth race Mr. Morris also had two entered, Terrifler and Russell. They were equal favorites, but close students of form be-lieved Terrifler the better of the two and bet accordingly. At the last moment the judges requested Mr. Morris to declare which he would win with, and he nominated Russell.

The injustice of this action of the judges can be clearly sorn. There is no doubt that they intended protecting the public by this action, but the rule which covers this especial matter cays explicitly that the declaration must be made at the time of weighing out and should be immediately costed on the building. be immediately posted on the bulletin board.

The action of the judges was, therefore, illadvised, but they can be readily exqueed, beeause they mean: well. Those people who had not on Terrifler in the opening of the betting had to sit calmiy by and see Taral pull him to

a standatill, so that Russell could win-All such mistakes may in the future be done away with if the Board of Control will pro-mulgate such a rule as the writer has surpeated. No honest racing man can raise an ejection to it. The rule works well in the West, and it should work well here. All the public saks is an even chance with the book-

The jockeys at Lomsville now carry the own saddles to the weigning stand. The Affection declared that the jockeys' valets must go, and they have lone. The West is certainly far more intogressive in turf improvements than in the East. The Louisville Clubs ruling will be recognized by all the Westers clubs, it is said.
